Dear Judge,

I have been following news reports about the Justice Department's efforts to stop Microsoft from destroying every software company that dares to compete with it. I have just found out that you have been appointed to make the final decision regarding the Proposed Final Judgement worked out between Microsoft and the Justice Department. I urge you to rule against it. I work for a non-profit organization which constantly struggles to meet its sparse budget. If Microsoft becomes the monopoly it wants to become so desperately, consumers, both individual and corporate, will have no protection against price gouging and the superior products that naturally arise out of free market competition. What Microsoft is trying to accomplish is not only legally wrong, it is morally wrong. I again ask you to rule against the PFJ and establish justice for ALL, not justice for the rich and powerful.

Thank you very much.
